Common Pleas Sustained in Case of O'Connor and Kirkbride-Dix Case Disposed Of-Other Decisions By Circuit Court at Lisbon.

Lisbon, April 11. - (Special) -The circuit court decisions were handed down yesterday afternoon. Opinions were given in 17 cases. One case, that of Wesley Wright, against the Big Vein Coal company, was continued.

Dr. William L. Thompson, of East Liverpool, convicted in common pleas court and sentenced to two years in the penitentiary for causing the death by a criminal operation of Lou Ada Moore, of Duquesne, Pa., will get a new trial in common pleas court. The judges express some surprise that a jury should return a verdict of guilty when there was no corroboration given by the testimony of the accomplice. Robert Winnett. At least there was no corroboration of the material facts.

The lower court is somewhat criticised for its definition of the phrase, 'a reasonable doubt." For, by the court's definition, the burden of the proof would be thrown on the eccused, whereas the burden of proof must be on the state. Judge Laubie delivered the opinion of the court in this case, but Judge Burrows took occasion to say he was impressed with the strength of the evidence and was not surprised that the jury returned a verdict against Thompson. He said that the jury probably took the view that Winnett lied when he said he did not recognize Thompson as the doctor who performed the operation. While the jury might have got at the truth of the matter, still Judge Burrows says, he agrees with the verdict of the circuit court.

The case of Jacob Culp et al against the commissioners of Columbiana county was decided in favor of the commissioners. The decision of the lower court was confirmed. The plaintiffs are lessees of section 16, the school section, of Salem township, and contend that the land leased by them is not subject to appraisement and taxation. The court decides that school land is subject to taxation and appraisement, and in this case the court thinks that the leasehold only was appraised and taxed.

The case of Clarence Kountz vs. Valentour and Atwood is from the old Wellsville oil region. Kountz leased land of this firm with the privilege of boring for oil, and struck gas, but when it was discovered that the well would not pay the firm abandoned it after serving notice on Kountz. Kountz then sued, claiming damages recause he might have used the gas himself. The lower court awarded him \$775. This verdict is reversed by the circuit court, for the reason that the common pleas court erred in not giving the jury a proper rule for assessing damages.

The common pleas court is sustained in its decision in the cases brought by Patrick O'Connor and Harry Kirkbride, of Wellsville, against Wellsville city. These men were fined in justice's court during the strike of last summer for assault and battery. They were then arrested and fined \$50 and costs for the same offense by the mayor of Wellsville. The ordinances were declared by the common pleas court to be invalid, for the reason that the city had no right to assess a fine for assault and battery when the statute makes the same an offense and provides punishment. The majority

of the circuit court afterms the decis ion of the lower court. The case went on error to the circuit court. The opinion of circuit court is that if the city could duplicate by ordinance the statute for crime in the instance of assault and battery it might also duplicate al! statutes relating to criminal matters. The opinion of the majority, as given by Judge Burrows, was considered by local attorneys an extremely able one. Judge Laubie dissented, asserting that the supreme court has decided that a man may suffer double penalty; moreover, as the the city has a right to prevent and punish breaches of the peace the city may punish assault and battery.

The two suits against Aaron Esterly, as receiver of the Jonathan Esterly banking company, of Columbiana, brought by the Third National bank of Pittsburg and the State National bank of Pittsburg, involve the same they can be made laws. question. These banks hold notes made by the Esterly Banking company which were secured by collateral. The question was whether the banks in Pittsburg were entitled to dividends balance after the collateral security was collected. The decision of the lower court that they should receive dividends only on the balance is affirmed.

The opinion of the common pleas court is held as correct by the circuit court in the case of Ohio on the relation of Charles Gill against the trusteees of West township. The suit was brought to determine who should pay the costs of an old West township

E. B. Thompson, a traveling man, purchased from Henry Roderus a share of stock in the East Palestine Land company. Roderus claims that be sold his interest in the share. Thompson asserts that he bought the entire share for \$75. The jury found in favor of Roderus. The circuit court reverses the judgment, for the reason that the court erred in the charge to the jury, saying that the transaction was illegal because Roderus sold a share, the par value of which was \$500, when he paid but 25 per cent of the par value into the company.

The case of the Ohio & Pennsylvania Coal company versus Frank Ross is decided in favor of the company. The decision and verdict of the lower court are reversed and the case remanded for a new trial. Ross got a verdict for \$800 for personal injuries.

Robert Hoopes died in 1896, leaving to each of his four children a farm of 381/2 acres, except that to his daughter Rebecca he gave only a life interest in the land. Rebecca claimed that her father had contracted to give her the land absolutely, in return for her care of him. The common pleas court last evening, has signed a contract to decision is affirmed and the circuit court decides that there was no such the summer season at Rock Springs contract and that she is entitled only to a life interest.

The suit brought by the administrators of Charles Dix, of East Livergool to recover from the owners of the Foutts building for injuries sustained by Dix by a fall into the elevator shaft in the building is again decided against the plaintiffs. The circuit court affirms the decision of the lower court that Dix himself was guilty of negligence.

The conveyance of land made by Jacob Chamberlain to his son William stands, in spite of the bitter opposition of the other children who at tempted to prove that the old man had been unduly influenced and had 1.ot the mental capacity to make a deed or will. In this case the decision of the lower court is affirmed.

The circuit court is of the opinion that if any error existed in the verdict in favor of Irvin Cook against George Charlton, it was that not enough damages were awarded Cook. Cook was in the employ of a Salem grocer and been licensed to marry. delivered goods in Washingtonville and was arrested by Charlton, marshal of that town, also a grocer. The court thinks that Cook, in throwing the piece of paper on the street, which caused his arrest, did not violate any Washingtonville ordinance,

Stafford Boarded a Panhandle Train at Chester And Met the Woman Down the River-Astounding Information Reaches the Mayor.

Deserting his wife and two children whom he left without a single penny with which to support them in his absence, Thomas L. Stafford, a member of the East Liverpool police force, took his departure from the city Wednesday noon in company, it is claimed, with a young woman, said to be Bertha Chapman, who resided with her mother on Monroe street, between Third and Fourth streets.

Though the utmost caution was exercised by the man to ward off suspicion of his intentions, it was soon suspected by other members of the police force that Stafford's departure

had something back of it. These suspicions were notwrongly founded, as Mayor Davidson learned from Stafford's wife yesterday that he had cloped with another woman, though at that time her identity was not

It was Stafford's turn this week to do night duty, but on Wednesday morning he telephoned to Mayor Davidson asking to be excused that night, explaining that his father was dying at Steubenville. The mayor willingly consented to allow him a was thought of the matter until yesterday morning, when Mrs. Stafford telephoned to the mayor's office and

asked if her husband was at Lisbon. Not suspecting that Stafford had misinformed his wife as to his whereabouts, the mayor told her that he had given him permission to go to Steubenville. On being apprised of that fact Mrs. Stafford went in person to the city hall, where she explained that called to Lisbon.

Judging from the suspicious actions of her husband during the past several weeks, Mrs. Stafford at once came to the conclusion that he had left the tion. The police also began to probe into the facts surrounding the case and learned that Stafford boarded the Panhandle train at Chester on Wed-Wheeling.

Inquiry at the home of the Chapman woman developed the fact that she had been missing since Wednesday noon, and while there may be some room for doubt, it is thought she met Stafford at Congo or some other point down the river.

It has been known by Mrs. Stafford for some time her husband has been paying attentions to Miss Chapman. It has also been reported at police headquarters on several occasions that Stafford left his beat of nights to call on the girl. Numerous persons have seen him at the girl's home and it is admitted by her father that the pair

had been on the most intimate terms. From one of the police today it was learned that Stafford had been figuring lately on leaving East Liverpool. He suspected he would be discharged from the police force and

Bad Money. It was said in the East End this morning that members of the band of gypsies who are camped in Glendale on property owned by Dr. William Calhoon, a short distance up Dry run, while in Wellsville attempted to pass a number of counterfeit coins, but without success. A reporter this morning saw a lot of money of this kind in possession of several members of the band. Sixteen of these women came from the East End to East Liverpool in one car this morning, and each gave the conductor a five-cent piece.

Not liking the idea of being "done" the conductor carefully examined each coin and found it all good money. People living in the vicinity of the camp are not at all satisfied with the idea of the gypsy camp, and so notified the owner of the property, who drove to the camp last evening and notified the band to move on.

They claim they will remain there for several weeks, but this remains to

Little Evidence Against Jones, Suspected of Killing Heywood.

Detroit, April 11.-The police admitted last night that they have not reached a solution of the murder of George H. Heywood, head bookkeeper of the Michigan Malleable iron works, whose battered and lifeless body was found at daylight yesterday morning, within 100 feet of his home, on Amherst street. William M. Jones, who roomed in Heywood's home, and who was arrested on suspicion yesterday morning, was still in custody last night. A "sweatbox" examination lasting all yesterday and last evening, failed to bring from him any damaging admissions.

To East Liverpool People to Inspect the Pitsburg Quarters of of the Equitable Life.

The Pittsburg agency of the Equtable Life Assurance Society of the United States, is now occupying its new office in the Frick building. Its former quarters in the Tradesmen's building proved entirely inadequate, and the agency rented the entire second floor of the Frick building.

The growth of this agency since its organization twenty years ago has been remarkable. In 1880 one small office in the McClintock building and a combination office and agency force of two people looked after all the business, which in that year amounted to \$21,000. In April, 1902, when removing into the Frick building, its present home, the office force numbers 34, there are 145 agents and the new business written during the last year amounted to \$13,557,744.

SECURED. ACREEMENT

The Attempt to Name a Date Failed Yesterday - Senator Hoar Announced He Would Never Vote for the Measure

Washington, April 11.-An effort was made late yesterday in the senate to obtain an agreement for a vote on the Chinese exclusion bill, but it was unsuccessful. The indications now are that the vote will be taken next Tuesday. The measure was under discussion during the entire session yesterday, except for about an hour, in which time the postoffice appropriation bill was considered and passed. Three speeches were made against the Chinese bill in its present form, Mr. Dillingham, of Vermont, conducting his remarks, and Mr. Stewart of Nevada and Mr. Hoar of Massachusetts stating their objections to the bill Mr. Stewart said he would vote for of Dominic Gallaher, of Salineville, could be obtained, as he favored the and had his right leg broken. exclusion of Chinese laborers, but he was opposed to many of its provisions. Mr. Hoar with considerable feeling announced his opposition to the bill, declaring that he would never vote for it.

New York, spoke briefly against the adoption of the resolution providing a block on the site and the church will for the election of senators by popular vote. In effect, he served notice on those states which had limited their suffrage, that if the resolution was enacted a demand would be made the right to vote or suffer a loss of representatives in congress.

TARIFFS ARE NOT SACRED.

Grosvenor So Asserted-Reciprocity Good Republican Doctrine.

Washington, April 11.-The debate on the Cuban reciprocity bill in the house yesterday was devoid of enlivening features. The most notable speech of the day was made by Mr. Grosvenor, of Ohio. He answered the critics who have charged him with inconsistency by saying that reciprocity was sound Republican doctrine, and that tariff schedules were not sacred. He predicted that the time would come, although it had not yet arrived, when there would be an inexorable demand for revision of the present rates. Mr. Prince, of Illinois, made a strong speech against the measure. The other speakers were Messrs. Lawrence (Mass.) and Mr. Miers (Ind.) for the bill, and Messrs. Weeks (Mich.) and Kleberg (Texas) against it.

Robert J. Wynne Accepts First Assistant Postmaster Generalship.

Washington, April 11.-Robert J. Wynne, the Washington correspondont of the New York Press, has been offered and has accepted the office of first assistant postmaster general. The nomination probably will be submitted to the Senate immediately after the president's return from Charleston. The change will take effect May 1, or earlier, as W. M. New Way of Using Chamberlain's Cough Remedy.

Mr. Arthur Chapman, writing from Durban, Natal, South Africa, says: "As a proof that Chamberlain's Cough Remedy is a cure suitable for old and young, I pen you the following: A neighbor of mine had a child just over two months old. It had a very bad cough and the parents did not know what to give it. I suggested that if they would get a bottle of Chamberlain's Cough Remedy and put some upon the dummy teat the baby as sucking it would no doubt cure the child. This they did and brought about a quick relief and cured the baby." This remedy is for sale by Alvin H. Bulger.

WALLER MAY SPEAK TODAY.

His Counsel So Requested of the Court.

Manila, April 11.-The members of the court-martial trying Major Lyttleage of King Alfonso XIII., of Spain. ton W. T. Waller, of the Marine corps, on the charge of executing natives of Samar without trial, were yesterday handed the records of Balangiga, island of Samar. They were mostly a series of letters from the insurgent general, Lukban, informing the officials of certain facts and congratulating them on a victory. There was one from Guevarra, the insurgent leader, telling the officials not to give out certain details, as it was contrary to the laws of war. One letter was from the president of Balangiga, addressed to Lukban, saying he had agreed on the policy of doing what the Americans likel, and then, when the opportunity offered, rising against them.

Counsel notified the court that they had finished with their witnesses and the court was requested to allow Major Waller to speak today before the regular addresses of counsel.

MAY VOTE TUESDAY

Indications That Senate May So Do on Chinese Exclusion Bill.

SECURED. ACREEMENT NOT

The Attempt to Name a Date Failed Yesterday - Senator Hoar Announced He Would Never Vote for the Measure

Washington, April 11.-An effort was made late yesterday in the senate to obtain an agreement for a vote on the Chinese exclusion bill, but it was unsuccessful. The indications now are that the vote will be taken next Tuesday. The measure was under discussion during the entire session yesterday, except for about an hour, in which time the postoffice appropriation bill was considered and passed. Three speeches were made against the Chinese bill in its present form, Mr. Dillingham, of Vermont, conducting his remarks, and Mr. Stewart of Nevada and Mr. Hoar of Massachusetts stating their objections to the bill Mr. Stewart said he would vote for could be obtained, as he favored the exclusion of Chinese laborers, but he was opposed to many of its provisions. Mr. Hoar with considerable feeling announced his opposition to the bill, declaring that he would never vote for it.

Early in the session Mr. Depew, of New York, spoke briefly against the and Charles Johnston. They will erect adoption of the resolution providing for the election of senators by popular vote. In effect, he served notice on those states which had limited their suffrage, that if the resolution was enacted a demand would be made regiment during the Cuban war, is on them to accord all their citizens dead at Shreve. He enlisted in Comthe right to vote or suffer a loss of pany H, but was later transferred to representatives in congress.

TARIFFS ARE NOT SACRED.

Grosvenor So Asserted-Reciprocity Good Republican Doctrine.

Washington, April 11 .- The debate on the Cuban reciprocity bill in the house yesterday was devoid of enlivening features. The most notable speech of the day was made by Mr. Grosvenor, of Ohio. He answered the critics who have charged him with inconsistency by saying that reciprocity was sound Republican doctrine, and that tariff schedules were not sacred. He predicted that the time would come, although it had not yet arrived, when there would be an inexorable demand for revision of the present rates. Mr. Prince, of Illinois, made a strong speech against the measure. The other speakers were Messrs, Lawrence (Mass.) and Mr. Miers (Ind.) for the bill, and Messrs. Weeks (Mich.) and Kleberg (Texas) against it.

claimed a job was awaiting him on a western railroad. Two or three times during his year of service Stafford allowed liquor to temporarily get the better of him, and on one particular occasion he became badly intoxicated. While this was well known to the other members of the force, nothing was ever said to Mayor Davidson.

One disgraceful charge that is made against Stafford since it is assured that he will no longer be on the police force, is that he has been "tipping" saloon keepers and gamblers about the city when raids were planned. The officers have known for several months that somebody has been acting the part of a traitor, and information that has come to light since Stafford's disappearance has conduced to the positive belief in the mayor and officers' minds that he was guilty of the underhanded work.

On Monday of this week Stafford rurchased a new suit of clothes at Steinfeld & Viney's store promising to pay in installments. He drew his pay from the city on Wednesday morning and gave Mr. Steinfeld \$5 on his account. This transaction was learned by Mrs. Stafford, who was thus led at first to disbelieve that he had left. She figured that if he proposed leaving for good he would not have paid anything on his clothes. Stafford left his police uniform at the store when he purchased his new suit, giving instructions to a clerk to have some alterations made.

The pistol, badge and handcuffs, which the missing man used while serving as an officer, are at his home and will be turned over to the mayor. He failed to give his wife any money when he drew his pay Wednesday, and it is claimed by her that in the past three months he gave her less than \$5 altogether.

Stafford has been on the police since a year ago this month. Previous to his appointment as a regular officer he was on the extra list. He did faithful service during the early part of his term, but finally grew careless and Chief Thompson was finally compelled to reprove him.

In the past few months, during which time Stafford's intimacy with the Chapman girl nad gained rapidly, the officers associated with him have noticed that he had trouble on his mind, though he refrained from betraying its nature or cause.

It was a shock to the mayor to learn of Stafford's downfall as he had never been apprised of the man's crooked doings, nor had he ever heard tendered one of the visitors at one of anything to lead him to suspect that Stafford and his wife did not live hap. It happened to be one of the boys pily together.

SPECULATION

Are You Wise?

There comes a time in the experience of every one when opportunity knocks at his door. Ninety-nine times out of a hundred, one refuses to open the door and recognize the opportunity. The other time the wise man opens the door, grasps the opportunity and a fortune at the same time. The ninety and nine look on and say, 'What a lucky man."

Most frequently the opportunity presents itself in the form of a speculative investment, a few dollars invested give promise of immense returns. For instance one can now buy a few shares of the stock of the Gas Apparatus Construction company. Within ninety days it may be worth a thousand dollars a share. It can now be had for less than \$40 the share.

Over two hundred people in East Liverpool and vicinity have already taken up part of the stock in blocks of from four to fifty shares. Only a comparatively few shares remain for sale to the general public.

The plant is finished. The Carey company of Pittsburg, has the contract for putting on the asbestos covering, and in a few days Supt. Brown says he will be ready for the chemical experts. If this process is successful every

FOR THE NEW TRACTION ROAD IN CHESTER.

Councilman Wetzet Entered an Emphatic Protest-Work Must Start in 30 Days.

After a long season of dickering and much discussion the Ohio Valley Electric railway, which intends to operate and maintain an electric railhas got an ordinance formulated for Carmen catering for the occasion. its franchise to construct a line through Chester.

An ordinance had been prepared and granting the electric line a 50-year franchise on condition that the company begin construction within 30 days and that the line be completed and the cars running in not less than 18 months after the work has been started.

Councilman Wetzel objected to a franchise for so long a period as 50 years, and when the motion was put to a vote a loud "nay" was heard from his direction. He maintained that the city should look to the future of its little folks and give them a chance to have their say regarding the matter of whether the franchise should be renewed or not. He held that a franchise might as well be granted to the street railway company allowing it to operate the road until eternity. Two of the other councilmen agreed with Mr. Wetzel in this Cannon's Mills, where he will attend matter and voted nay also. The amendments to the ordinance render anothe vote necessary.

The question who should be appointed to take care of the street lights, turning them on in the evening and off in the morning, was brought before the council. Councilman Riley moved that the chief of police attend to this matter. The motion was not carried, however, a discussion arising as to whether Risinger brothers had not agreed to do this themselves, as well as keep them in repair. The beans, rhubarb, tomatoes, cucumbers, matter was deferred until the next head lettuce cauliflower, egg plant, meeting, when the recorder could look up the agreement.

MISCHEVIOUS BOYS

PLAYED FOOTBALL IN THE MUD WITH A HOG'S HEAD.

Found It Hanging In Front of a Butcher Shop-Was Badly Used Up.

An up-town butcher closed his place of business last night and went they were hanging in front of the door. The porker's head was found this badly disfigured state.

A gang of boys noticing the head and finding no one about to stop their and used it for a football. Several games of both Rugby and association were played, the ears serving for excellent hand holds. The head stood the sport quite well for a time until one of the boys knocked an eye out of it while trying to kick a goal.

In a mixup the ears were stretched to twice their natural length, while the remaining good eye was crossed and the tongue knocked out of plumb. A small tuft of hair behind the ears was about the only thing that looked natural after the youngsters finished their game, and as a parting salute one of the lads tried to kick it over a telephone pole.

When the proprietor of the shop opened his doors for business this morning he found the head lying in a puddle of mud. Owing to the manner in which it was disfigured he was unable for a time to recognize it, but finally did so. Securing a section of hose the butcher connected it with a water pipe. The porker's visage was then given a thorough scrubbing and after the operation looked fairly respectable, only that the missing eye prevented any "goo-goo" business.

It was not learned by the aggravated butcher who the boys were that caused him the trouble. The hog that owned the head of course made no kick, but there is no doubt the butcher will if he gets hold of either of the urchins who assaulted his helpless swine.

MUCH DAMAGE

By the Falling of the Heavy Safe Down the Stairway of the Thompson Building.

The damage that resulted yesterday afternoon from the plunge taken by a heavy safe down the stairway of the W. L. Thompson building on Fifth street, amounted to several hundred dollars. The Boston store suffered considerable loss from a broken water pipe a portion of the store being del-

Harrison Rinehart had the contract for moving the safe, which was the property of the National Brotherhood of Operative Potters. It had been moved down a portion of one flight of stairs from the third story by means of a block and tackle. When about half way down to the second landing the rope broke and the ponderous receptacle went tumbling downward.

The stair steps were crushed into plinters, but the safe continued in its descent until striking the lower landing at the hall door, where it crashed up against the stone work at the left side of the door.

Clerks in the Boston store were badly frightened, all of them believing the building was tumbling down, while others on the upper floors were also much excited. The stairway will have to be entirely rebuilt.

THREE NEW CARS

To Be Fitted Up for Use on the Calcutta Road Line.

Superintendent Thomas Reed, of the East Liverpool Street railway, is authority for the statement that three cars will be rigged up for the Calcutta hill road. In fact, one of these cars is almost completed, only the track brake being lacking. It is the purpose of the company to take the car that is now being used on the road, to the barn, where a new wheel will be placed on the truck to take the place of the flat wheel now on the car.

The company proposes to operate two cars on the line during the summer, and hold the third in reserve for emergency.

Article Dealing With This Finished by Presbyterian Revision Committee.

Washington, April 11 .- The Presby terian committee on creed revision continued their sessions yesterday. The discussion was entirely over the third article of the statement of doctrine. This relates to what is ecclestastically termed the divine pur-

The article relating to the "Divine purpose" was completed, and that upon the question of "Grace" was begun. Considerable discussion was indulged in as to whether any recommendations should be made to the general assembly regarding the form the statement of doctrine should take, whether is should be incorporated into the church constitution or otherwise, but the matter finally was left to the assembly to settle.

Crowder Investigating Charge of Camp at Chalmette.

New Orleans, April 11 .- Col. E. P. Crowder, of the judge advocate general's department of the United States army, has already begun the work of investigating the charge that a British army camp is being maintained at Chalmette, and yesterday he had before him a number of typewritten instruments, presumably containing the evidence submitted to Presideni Roosevelt by Gov. Heard.

Gen. Samuel Pearson is expected here from the capitol this week, and will be one of the important witnesses. The work of shipping mules and horses at Port Chalmette has not been interrupted, and three transports are now lying at the wharves ready to take on cargoes.

MISCHEVIOUS BOYS

PLAYED FOOTBALL IN THE MUD WITH A HOG'S HEAD.

Found It Hanging In Front of a Butch. er Shop-Was Badly Used Up.

An up-town butcher closed his place of business last night and went they were hanging in front of the door. The porker's head was found this badly disfigured state.

A gang of boys noticing the head and used it for a football. Several games of both Rugby and association were played, the ears serving for excellent hand holds. The head stood the sport quite well for a time until one of the boys knocked an eye out of it while trying to kick a goal.

In a mixup the ears were stretched to twice their natural length, while the remaining good eye was crossed and the tongue knocked out of plumb. A small tuft of hair behind the ears was about the only thing that looked natural after the youngsters finished their game, and as a parting salute one of the lads tried to kick it over a telephone pole.

When the proprietor of the shop opened his doors for business this morning he found the head lying in a puddle of mud. Owing to the manner in which it was disfigured he was unable for a time to recognize it, but finally did so. Securing a section of hose the butcher connected it with a water pipe. The porker's visage was then given a thorough scrubbing and after the operation looked fairly respectable, only that the missing eye prevented any "goo-goo" business.

It was not learned by the aggravated butcher who the boys were that caused him the trouble. The hog that owned the head of course made no kick, but there is no doubt the butcher will if he gets hold of either of the urchins who assaulted his helpless swine.

MUCH DAMAGE

By the Falling of the Heavy Safe Down the Stairway of the Thompson Building.

The damage that resulted yesterday afternoon from the plunge taken by a heavy safe down the stairway of the W. L. Thompson building on Fifth street, amounted to several hundred dollars. The Boston store suffered considerable loss from a broken water pipe a portion of the store being del-

Harrison Rinehart had the contract for moving the safe, which was the property of the National Brotherhood of Operative Potters. It had been moved down a portion of one flight of stairs from the third story by means of a block and tackle. When about balf way down to the second landing the rope broke and the ponderous receptacle went tumbling downward.

The stair steps were crushed into splinters, but the safe continued in its descent until striking the lower landing at the hall door, where it crashed up against the stone work at the left side of the door.

Clerks in the Boston store were badly frightened, all of them believing the building was tumbling down, while others on the upper floors were also much excited. The stairway will have to be entirely rebuilt.

ARE YOUR NERVES SHATTERED?

Are you on the brink of nervous prostration? Are your nerves all unstrung? Do you feel a general breaking down? It's no wonder! We Americans hustle too hard, we work too much and too long, we tax our nerve power to its greatest capacity. Nerves are not iron! They must give way under the great strain. Have yours not already done so? You can tell if yours have by those sleepless, restless nights you have, by those constant headaches you have and by your failing appetite.

PEACE ARRANGED?

Terms Reputed Telegraphed to the Boer Leaders, In Europe.

Other Unconfirmed Statements of a Similar Nature in Circulation in London, but Nothing Official or Confirmatory -ast Night.

London, April 11.-The Financier and Bullionist published a dispatch from Pretoria this morning declaring that the Boer leaders have accepted the British terms, that peace has been arranged, and that the terms of peace have been cabled to the Boer agents in Europe.

Other unconfirmed statements of a similar character were in circulation in London last night. It was said that Frederic Rutherford Harris, former secretary of the British Chartered South Africa Company, had received a telegram to the same effect. but nothing of any official or really reliable nature concerning the matter only within recent years that attenwas known.

London, April 11.-The war secretary, Mr. Brodrick, in the house of commons yesterday, referring to the press advices from South Africa, said Schalk-Burger, Reitz, Lucas Meyer and Jacobs had been joined at Klerksdorp by Gen. Botha, and added that Steyn, DeWet, Delarey and three not fail to command attention. other members of the late Orange government arrived at the same place Wednesday. No communication, Mr. Brodrick further said, had been received from the Boer leaders except regarding safe conducts for the participators in the conference.

The Colonial secretary, Mr. Chamberlain, added the information that no limit had been fixed for the expiration of the safe conducts. These would be extended so long as the negotiations were in progress, after which the delegates would be allowed to return to their respective districts without hindrance.

ACCUSED OF BRUTAL CRIME.

Music Teacher, at Detroit, Arrested for Girl's Murder-Strong Evidence Against Him.

Detroit, April 11.-What the police consider to be a strong link in the on with less interruption from snow chain of circumstantial evidence that blockades during the last ten winters they are weaving about Prof. Joseph M. Miller, aged 47, a music teacher roads in other localities which are and a married man with a family, who is under arrest on suspicion of brutally murdering Miss Carrie M Jennett, on Thirteenth street, just before midnight, Wednesday night, was discovered last evening.

It is a bloodstained hatchet which was found in the drawer of a table in Miller's kitchen. There is now the following circumstantial evidence against Prof. Miller, who was the girl's music teacher, and had paid her such marked attention that her father had asked him to keep away from the house.

When he was examined at the Grand River avenue police station yesterday morning, what are supposed to be bloodstains, were found on his shirt sleeves, his trousers, shoes, hat and overcoat; a towel was discovered in a wash room adjoining his kitchen with what are supposed to be bloodstains on it; when he was asked for an explanation of the stains on his clothing, he gave none, and finally the blood-stained hatchet ४५५५५५५५ found last night.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is tion has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument-the conclusion is selfevident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that can-

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone than it has upon the majority of railpopularly supposed to be more free from such delays than the mountain systems. PEACE ARRANGED?

Terms Reputed Telegraphed to the Boer Leaders, In Europe.

PRETORIA DISPATCH ARRESTED

Other Unconfirmed Statements of a Similar Nature in Circulation in London, but Nothing Official or Confirmatory -ast Night.

London, April 11.-The Financier and Bullionist published a dispatch from Pretoria this morning declaring that the Boer leaders have accepted the British terms, that peace has been arranged, and that the terms of peace have been cabled to the Boer agents in Europe.

Other unconfirmed statements of a similar character were in circulation in London last night. It was said that Frederic Rutherford Harris, former secretary of the British Chartered South Africa Company, had received a telegram to the same effect. but nothing of any official or really reliable nature concerning the matter

BOER PEACE NECOTIATIONS.

Botha, Steyn, DeWet and Other Leaders Joined the Negotiations.

London, April 11.-The war secretary, Mr. Brodrick, in the house of commons yesterday, referring to the press advices from South Africa, said Schalk-Burger, Reitz, Lucas Meyer and Jacobs had been joined at Klerksdorp by Gen. Botha, and added that Steyn, DeWet, Delarey and three other members of the late Orange government arrived at the same place Wednesday. No communication, Mr. Brodrick further said, had been re ceived from the Boer leaders except regarding safe conducts for the participators in the conference.

The Colonial secretary, Mr. Chamberlain, added the information that no limit had been fixed for the expiration of the safe conducts. These would be extended so long as the negotiations were in progress, after which the delegates would be allowed to return to their respective districts without hindrance.

ACCUSED OF BRUTAL CRIME.

Music Teacher, at Detroit, Arrested for Girl's Murder-Strong Evidence Against Him.

Detroit, April 11.-What the police consider to be a strong link in the and a married man with a family, popularly supposed to be more free who is under arrest on suspicion of from such delays than the mountain brutally murdering Miss Carrie M Jennett, on Thirteenth street, just before midnight, Wednesday night, was discovered last evening.

> It is a bloodstained hatchet which was found in the drawer of a table in Miller's kitchen. There is now the following circumstantial evidence against Prof. Miller, who was the girl's music teacher, and had paid her such marked attention that her father had asked him to keep away from the house.

> When he was examined at the Grand River avenue police station yesterday morning, what are supposed to be bloodstains, were found on his shirt sleeves, his trousers, shoes, hat and overcoat; a towel was discovered in a wash room adjoining his kitchen with what are supposed to be bloodstains on it: when he was asked for an explanation of the stains on his clothing, he gave none, and finally the blood-stained hatchet found last night.

> Miss Jennett, who was 22 years of age, and who would have become a mother in a few months, was most

CUBANS LIKE POSTAL SYSTEM.

Ask Its Continuance Until Cuban Appointees Learn.

Washington, April 11.-Presidentelect T. Estrada Palma, of Cuba, accompanied by Gonzalo de Quesada, had a conference yesterday with Postmaster General Payne and other postal officials. They asked that this government continue the existing pos tal arrangements with the island, and that the present postal officials now in Cuba be kept there until the Cuban appointees have become thoroughly familiar with postal opera-

As a result of the conference the present postal relations between this government and Cuba, including the domestic rates of postage change of money orders, will be continued by joint action of both governments until a postal treat, shall be concluded between the two governments.

PASSED SPECIAL TAX BILL.

Ohio Corporations Must Pay a Little More Than Regular Revenue.

Columbus, O., April 11,-The senate passed the Willis bill, one of the administration's tax measures by a pare vote vesterday. It places annual tax of 1-10 of 1 per cent of the para up espital stock upon corporations in addition to their regular property taxes. The house defeated the Archer fish and game bill.

Gov. Nash announced yesterday that he would appoint Lieut. Gov. Carl Nippert probate judge of Hamilton county. This will make Senator F. B. Archer, of Belmont county, lieutenant governor of the state-he being now president of the senate.

Wintering in Colorado And Utah. The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument-the conclusion is selfevident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow chain of circumstantial evidence that blockades during the last ten winters systems. T is wonderful the amount of style and excellence crowded into these garments. The styles equal the highest priced made, though there's a difference of course, in the quality of the goods and of the trimmings. Yet we may safely say that there is not a garment in the entire aggregation — more than 20 styles —that can be duplicated elsewhere under \$13.00. The fabrics are all wool, the trim-mings are substantial, the workmanship first class, fit and finish are perfect, and alterations, if any are necessary, are made at our expense.

Common Pleas Sustained in Case of O'Connor and Kirkbride-Dix Case Disposed Of-Other Decisions By Circuit Court at Lisbon.

Dr. William L. Thompson, of East Liverpool, convicted in common pleas court and sentenced to two years in the penitentiary for causing the death by a criminal operation of Lou Ada Moore, of Duquesne, Pa., will get a new trial in common pleas court. The judges express some surprise that a jury should return a verdict of guilty when there was no corroboration given by the testimony of the accomplice. Robert Winnett. At least there was no corroboration of the material

The lower court is somewhat criticised for its definition of the phrase. a reasonable doubt." For, by the court's definition, the burden of the proof would be thrown on the accused, whereas the burden of proof must be on the state. Judge Laubie delivered the opinion of the court in this case, but Judge Burrows took occasion to say he was impressed with the strength of the evidence and was not surprised that the jury returned a verdict against Thompson. He said that the jury probably took the view that Winnett lied when he said he did not recognize Thompson as the doctor who performed the operation. While the jury might have got at the truth of the matter, still Judge Burrows says, he agrees with the verdict of the circuit court.

The case of Jacob Culp et al against the commissioners of Columbiana county was decided in favor of the commissioners. The decision of the lower court was confirmed. The plaintiffs are lessees of section 16, the school section, of Salem township, and contend that the land leased by them is not subject to appraisement and taxation. The court decides that school land is subject to taxation and appraisement, and in this case the court thinks that the leasehold only was appraised and taxed.

The case of Clarence Kountz vs. Valentour and Atwood is from the old Wellsville oil region. Kountz leased land of this firm with the privilege of boring for oil, and struck gas, but when it was discovered that the well would not pay the firm abandoned it after serving notice on Kountz. Kountz then sued, claiming damages recause he might have used the gas himself. The lower court awarded him \$775. This verdict is reversed by the circuit court, for the reason that the common pleas court erred in not giving the jury a proper rule for assessing damages.

The common pleas court is sustained in its decision in the cases brought by Patrick O'Connor and Harry Kirkbride, of Wellsville, against Wellsville city. These men were fined in justice's court during the strike of last summer for assault and battery. They were then arrested and fined \$50 and costs for the same offense by the mayor of Wellsville. The ordinances were declared by the common pleas court to be invalid, for the reason that the city had no right to assess a fine for assault and battery when the statute makes the same an offense and provides punishment. The majority

of the circuit court affirms the decision of the lower court. The case went on error to the circuit court. The opinion of circuit court is that if the city could duplicate by ordinance the THE COLE AND WILLIS BILLS THEIR statute for crime in the instance of assault and battery it might also duplicate al! statutes relating to criminal Have Passed Both Branches of the Took the Lion's Share of the Cash And matters. The opinion of the majority, as given by Judge Burrows, was con-EXPRESS SOME SURPRISE sidered by local attorneys an extremely able one. Judge Laubie dissented, asserting that the supreme court has decided that a man may suffer doubreaches of the peace the city may punish assault and battery.

The two suits against Aaron Esterly, as receiver of the Jonathan Esterly banking company, of Columbiana, brought by the Third National bank of Pittsburg and the State National bank of Pittsburg, involve the same question. These banks hold notes which were secured by collateral. The question was whether the banks in Pittsburg were entitled to dividends handed down yesterday afternoon balance after the collateral security lower court that they should receive dividends only on the balance is af-

Roderus claims that be sold his interest in the share Thompson asserts that he bought the entire share for \$75. The jury found in favor of Roderus. The circuit court reverses the judgment, for the reason that the court erred in the charge to the jury, saying that the transaction was illegal because Roderus sold share, the par value of which was Meet at Steubenville Tomorrow. \$500, when he paid but 25 per cent of the par value into the company.

The case of the Ohio & Pennsylvania Coal company versus Frank Ross is decided in favor of the company. The decision and verdict of the lower court are reversed and the case remanded for a new trial. Ross got a verdict for \$800 for personal injuries.

Robert Hoopes died in 1896, leaving to each of his four children a farm of 381/2 acres, except that to his daughter Rebecca he gave only a life interest in the land. Rebecca claimed that her father had contracted to give her the land absolutely, in return for her care of him. The common pleas court decision is affirmed and the circuit court decides that there was no such contract and that she is entitled only to a life interest.

The suit brought by the administrators of Charles Dix, of East Liverpool to recover from the owners of the Foutts building for injuries sustained by Dix by a fall into the elevator shaft in the building is again decided against the plaintiffs. The cirlower court that Dix himself was guilty of negligence.

The conveyance of land made by Jacob Chamberlain to his son William stands, in spite of the bitter opposition of the other children who attempted to prove that the old man had been unduly influenced and had 1.ot the mental capacity to make a deed or will. In this case the decision of the lower court is affirmed.

The circuit court is of the opinion that if any error existed in the verdict in favor of Irvin Cook against George Charlton, it was that not enough damages were awarded Cook. Cook was in the employ of a Salem grocer and delivered goods in Washingtonville and was arrested by Charlton, marshal of that town, also a grocer. The court thinks that Cook, in throwing the piece of paper on the street, which caused his arrest, did not violate any Washingtonville ordinance.

Deserting his wife and two children whom he left without a single penny with which to support them in his absence, Thomas L. Stafford, a member of the East Liverpool police force, took his departure from the city Wednesday noon in company, it is claimed with a young woman, said to be Bertha Chapman, who resided with her mother on Monroe street, between Third and Fourth streets.

Though the utmost caution was exercised by the man to ward off suspicion of his intentions, it was soon suspected by other members of the police force that Stafford's departure

had something back of it. These suspicions were notwrongly founded, as Mayor Davidson learned from Stafford's wife yesterday that he had cloped with another woman, though at that time her identity was not known.

It was Stafford's turn this week to do night duty, but on Wednesday morning he telephoned to Mayor Davidson asking to be excused that night, explaining that his father was dying at Steubenville. The mayor willingly consented to allow him a was thought of the matter until yesterday morning, when Mrs. Stafford Blaine Cochran, of this city, is the telephoned to the mayor's office and asked if her husband was at Lisbon.

Judging from the suspicious actions of her husband during the past several weeks, Mrs. Stafford at once came to the conclusion that he had left the city to stay and began an investigation. The police also began to probe into the facts surrounding the case Wheeling.

Inquiry at the home of the Chapman woman developed the fact that she had been missing since Wednesday noon, and while there may be some room for doubt, it is thought she met Stafford at Congo or some other point down the river.

It has been known by Mrs. Stafford for some time her husband has been paying attentions to Miss Chapman. ft has also been reported at police headquarters on several occasions that Stafford left his beat of nights to call on the girl. It was said in the East End this morning that members of the band of gypsies who are camped in Glendale on property owned by Dr. William Calhoon, a short distance up Dry run, while in Wellsville attempted to pass a number of counterfeit coins, but without success. A reporter this morning saw a lot of money of this kind in possession of several members of the band. Sixteen of these women came from the East End to East Liverpool in one car this morning, and each gave the conductor a five-cent

Not liking the idea of being "done" the conductor carefully examined each coin, and found it all good money. THE CYPSY BAND

ITS APPEARANCE ON THE STREET A UNIQUE ONE.

Singular Scenes About the Camp-The Wanderers' Destination. Coming Coronation.

When the band of Stanley Gypsies passed along Fifth street yesterday morning such a sight was never witnesed in East Liverpool before. Like all bands, the gypsies had a leader, and one that could not well speak the language of the United States accurately. He was riding a horse that had seen better days, and when at the corner of Fifth and Broadway stopped a newspaper man and asked for the Klondike pottery.

The route was pointed out to the leader, but while he was talking the entire line of wagons, old carriages, buckboards, and sulkies was stopped, just a a circus parade is sometimes stopped. The drivers of some of the horses were men, others were women one wagon was a horse pulling a wagon containing stoves. There were three heaters in the wagon, and such heaters! There was no bit in the horse's mouth, but just a half inch rope about the animal's neck.

The Pittsburg agency of the Equtable Life Assurance Society of the United States, is now occupying its new office in the Frick building. Its former quarters in the Tradesmen's building proved entirely inadequate, and the agency rented the entire second floor of the Frick building.

The growth of this agency since its organization twenty years ago has been remarkable. In 1880 one small office in the McClintock building and a combination office and agency force of two people looked after all the business, which in that year amounted to \$21,000. In April, 1902, when removing into the Frick building, its present home, the office force numbers 34. there are 145 agents and the new business written during the last year amounted to \$13,557,744.

Invitations have been received in this city to meet the officers of the society and to inspect the new quarters today from 2 until 4 o'clock.

Indications That Senate May So Do on Chinese Exclusion Bill.

NOT SECURED. ACREEMENT

The Attempt to Name a Date Failed Yesterday - Senator Hoar Announced He Would Never Vote for the Measure.

Washington, April 11.-An effort was made late yesterday in the senate to obtain an agreement for a vote on the Chinese exclusion bill. but it was unsuccessful. The indications now are that the vote will be taken next Tuesday. The measure was under discussion during the entire session yesterday, except for about an hour, in which time the postoffice appropriation bill was considered and passed. Three speeches were made against the Chinese bill in its present form, Mr. Dillingham, of Vermont, conducting his remarks, and Mr. Stewart of Nevada and Mr. Hoar of Massachusetts stating their objections to the bill Mr. Stewart said he would vote for the measure if it was the best that could be obtained, as he favored the exclusion of Chinese laborers, but he was opposed to many of its provisions. Mr. Hoar with considerable feeling announced his opposition to the bill, declaring that he would never vote for it.

New York, spoke briefly against the adoption of the resolution providing a block on the site and the church will for the election of senators by popular vote. In effect, he served notice on those states which had limited their suffrage, that if the resolution was enacted a demand would be made on them to accord all their citizens the right to vote or suffer a loss of pany H, but was later transferred to representatives in congress.

TARIFFS ARE NOT SACRED.

Grosvenor So Asserted-Reciprocity Good Republican Doctrine.

Washington, April 11 .- The debate on the Cuban reciprocity bill in the house yesterday was devoid of enlivening features. The most notable speech of the day was made by Mr. Grosvenor, of Ohio. He answered the critics who have charged him with inconsistency by saying that reciprocity was sound Republican doctrine, and that tariff schedules were not sacred. He predicted that the time would come, although it had not yet arrived, when there would be an that if they would get a bottle of inexorable demand for revision of the Chamberlain's Cough Remedy and put present rates. Mr. Prince, of Illinois, made a strong speech against the measure. The other speakers were Messrs, Lawrence (Mass.) and Mr. Miers (Ind.) for the bill, and Messrs. Weeks (Mich.) and Kleberg (Texas) against it.

WALLER MAY SPEAK TODAY. His Counsel So Requested of the

Court.

Manila, April 11.-The members of the court-martial trying Major Lyttleton W. T. Waller, of the Marine corps, on the charge of executing natives of Samar without trial, were yesterday handed the records of Ba langiga, island of Samar. They were mostly a series of letters from the insurgent general, Lukban, informing the officials of certain facts and congratulating them on a victory. There was one from Guevarra, the insurgent leader, telling the officials not to give out certain details, as it was contrary to the laws of war. One letter was from the president of Balangiga, addressed to Lukban, saying he had agreed on the policy of doing what the Americans likel, and then, when the opportunity offered, rising against them.

Counsel notified the court that they had finished with their witnesses, and the court was requested to allow Major Waller to speak today before the regular addresses of counsel.

POTTERY NEWS

Another story has been heard this week to the effect that the English manufacturers contemplate putting a 10 per cent reduction on all export orders, in the hope that their business in the United States may be increased. an English gentleman who was in this city a few weeks ago, working in the interest of an exporting house from over the pond. It is a well known fact that during the past few years the domestic manufacturers have made wonderful advances toward increasing their sales in the United States, and knowing this the English manufact urers have been compelled to close many factories on account of a scar city of orders. Workmen who have come from the English pottery centers recently, report that very many of the factories there are running short time, and in some cases the plants are shut down entirely. A gentleman who is posted on such matters said today that he understood the reduction was to in English exports of pottery ware for a time, but the American manufacturer will be equal to the occasion, and it be caught napping.

Not less than 1,000 persons are expected to visit Rock Springs park on June 2 from Wheeling. The occasion is the annual picnic of the National Brotherhood of Operative Potters. During the past few days letters have been received by Chairman Lercy Orr, who has the arrangements for the outing in hand, stating that all out-of-town locals are about to appoint committees to prepare for the trip. A special train will be run from Wheeling, leaving there at 8 o'clock in the morning and in the evening the train will leave the park at 9 o'clock.

Lately the Golding Flint Mill company has made several improvements to its factory at the lower end of Fourth street, which when completed will have cost the company in the neighborhood of \$2,000. For the past week representatives of a Pittsburg firm have been working at the factory erecting a new elevator, which cost about \$1,200. Besides this change the company has installed two pairs or "chasers" and has built new and commodious spar bins. The improvements will be completed by the middle or

claimed a job was awaiting him on a western railroad. Two or three times during his year of service Stafford allowed liquor to temporarily get the In fact, the statement is credited to better of him, and on one particular occasion he became badly intoxicated. While this was well known to the other members of the force, nothing was ever said to Mayor Davidson.

One disgraceful charge that is made against Stafford since it is assured that he will no longer be on the polic force, is that he has been "tipping saloon keepers and gamblers about th city when raids were planned. The officers have known for several months that somebody has been acting the part of a traitor, and information that has come to light since Stafford's dis appearance has conduced to the positive belief in the mayor and officers minds that he was guilty of the under handed work.

On Monday of this week Stafford purchased a new suit of clothes at Steinfeld & Viney's store promising to pay in installments. He drew his pay from the city on Wednesday morning and gave Mr. Steinfeld \$5 on his account. This transaction was learned by Mrs. Stafford, who was thus led at first to disbelieve that he had left. She figured that if he proposed leaving for good he would not have paid anything on his clothes. Stafford left his police uniform at the store when he purchased his new suit giving instructions to a clerk to have some alterations made.

The pistol, badge and handcuffs which the missing man used while serving as an officer, are at his home and will be turned over to the mayor. He failed to give his wife any money when he drew his pay Wednesday, and it is claimed by her that in the past three months he gave her less than \$5 altogether.

Stafford has been on the police since a year ago this month. Previous to his appointment as a regular officer he was on the extra list. Miss Rachael Baxter and Miss Nellie has got an ordinance formulated for Carmen catering for the occasion. its franchise to construct a line through Chester.

granting the electric line a 50-year and tomorrow. franchise on condition that the company begin construction within 30 days and that the line be completed and the cars running in not less than 18 months after the work has been started

Councilman Wetzel objected to a franchise for so long a period as 50 years, and when the motion was put to a vote a loud "nay" was heard from his direction. He maintained that the city should look to the future of its little folks and give them a chance to have their say regarding the matter of whether the franchise should be renewed or not. He held that a franchise might as well be granted to the street railway company allowing it to operate the road until eternity. Two of the other councilmen agreed with Mr. Wetzel in this Cannon's Mills, where he will attend matter and voted nay also. The amendments to the ordinance render anothe vote necessary.

The question who should be appointed to take care of the street lights, turning them on in the evening and off in the morning, was brought before the council. Councilman Riley moved that the chief of police attend to this matter. The motion was not carried, however, a discussion arising as to whether Risinger brothers had not agreed to do this themselves, as well as keep them in repair. The beans, rhubarb, tomatoes, cucumbers, matter was deferred until the next head lettuce cauliflower, egg plant, meeting, when the recorder could look radishes, carrots, mint, celery, kale, up the agreement.

SPECULATION

Are You Wise?

There comes a time in the experience of every one when opportunity knocks at his door. Ninety-nine times out of a hundred, one refuses to open the door and recognize the opportu nity. The other time the wise man opens the door, grasps the opportunity and a fortune at the same time. The ninety and nine look on and say, What a lucky man."

Most frequently the opportunity presents itself in the form of a speculative investment, a few dollars invested give promise of immense returns. Thomas Herbert, who for some time For instance one can now buy a few shares of the stock of the Gas Apparatus Construction company. Within ninety days it may be worth a thousand dollars a share. It can now be had for less than \$40 the share.

Over two hundred people in East Liverpool and vicinity have already taken up part of the stock in blocks of from four to fifty shares. Only a comparatively few shares remain for sale to the general public.

The plant is finished. The Carey company of Pittsburg, has the contract for putting on the asbestos covering, and in a few days Supt. Brown says he will be ready for the chemical experts.

If this process is successful every argefactory will build its own gas plant and manufacture its fuel on the premises at a cost of less than five cents a thousand cubic feet, in which cost a liberal royalty is included for the stockholders of the Gas Apparatus Construction company.

MISCHEVIOUS BOYS

PLAYED FOOTBALL IN THE MUD WITH A HOG'S HEAD.

Found It Hanging In Front of a Butcher Shop-Was Badly Used Up.

An up-town butcher closed his place of business last night and went they were hanging in front of the door. The porker's head was found this morning lying on the sidewalk in a badly disfigured state.

A gang of boys noticing the head and used it for a football. Several games of both Rugby and association were played, the ears serving for excellent hand holds. The head stood the sport quite well for a time until one of the boys knocked an eye out of it while trying to kick a goal.

In a mixup the ears were stretched to twice their natural length, while the remaining good eye was crossed and the tongue knocked out of plumb. A small tuft of hair behind the ears was about the only thing that looked natural after the youngsters finished their game, and as a parting salute one of the lads tried to kick it over a telephone pole.

When the proprietor of the shop opened his doors for business this morning he found the head lying in a puddle of mud. Owing to the manner in which it was disfigured he was unable for a time to recognize it, but finally did so. Securing a section of hose the butcher connected it with a water pipe. The porker's visage was then given a thorough scrubbing and after the operation looked fairly respectable, only that the missing eye prevented any "goo-goo" business.

It was not learned by the aggravated butcher who the boys were that caused him the trouble. The hog that owned the head of course made no kick, but there is no doubt the butcher will if he gets hold of either of the urchins who assaulted his helpless swine.

MUCH DAMAGE

By the Falling of the Heavy Safe Down the Stairway of the Thompson Building.

The damage that resulted yesterday ifternoon from the plunge taken by a neavy safe down the stairway of the W. L. Thompson building on Fifth treet, amounted to several hundred dollars. The Boston store suffered considerable loss from a broken water pipe a portion of the store being del-

Harrison Rinehart had the contract for moving the safe, which was the roperty of the National Brotherhood of Operative Potters. It had been moved down a portion of one flight of stairs from the third story by means of a block and tackle. When about half way down to the second landing the rope broke and the ponderous re-

ceptacle went tumbling downward. The stair steps were crushed into splinters, but the safe continued in its descent until striking the lower landing at the hall door, where it crashed up against the stone work at the left side of the door.

Clerks in the Boston store were badly frightened, all of them believing the building was tumbling down, while others on the upper floors were also much excited. The stairway will have to be entirely rebuilt.

THREE NEW CARS

To Be Fitted Up for Use on the Calcutta Road Line.

Superintendent Thomas Reed, of the East Liverpool Street railway, is authority for the statement that three cars will be rigged up for the Calcutta hill road. It is the purpose of the company to take the car that is now being used on the road, to the barn, here a new wheel will be placed on the truck to take the place of the flat wheel now on the car.

The company proposes to operate two cars on the line during the summer, and hold the third in reserve for

PEACE ARRANGED?

Terms Reputed Telegraphed to the Boer Leaders, In Europe.

Other Unconfirmed Statements of Similar Nature in Circulation in London, but Nothing Official or Confirmatory Last Night.

London, April 11.-The Financier and Bullionist published a dispatch from Pretoria this morning declaring that the Boer leaders have accepted the British terms, that peace has been arranged, and that the terms of peace have been cabled to the Boer agents in Europe.

Other unconfirmed statements of a similar character were in circulation in London last night. It was said that Frederic Rutherford Harris, for mer secretary of the British Chartered South Africa Company, had received a telegram to the same effect but nothing of any official or really reliable nature concerning the matter

Botha, Steyn, DeWet and Other Leaders Joined the Negotiations.

London, April 11 .- The war secretary, Mr. Brodrick, in the house of commons yesterday, referring to the press advices from South Africa, said Schalk-Burger, Reitz, Lucas Meyer and Jacobs had been joined at Klerksdorp by Gen. Botha, and added that Stevn. DeWet. Delarey and three other members of the late Orange government arrived at the same place Wednesday. No communication, Mr. Brodrick further said, had been re ceived from the Boer leaders except regarding safe conducts for the participators in the conference.

The Colonial secretary, Mr. Chamberlain, added the information that no limit had been fixed for the expiration of the safe conducts. These would be extended so long as the negotiations were in progress, after which the delegates would be allowed to return to their respective districts without hindrance.

Wednesday night, was discovered last evening.

It is a bloodstained hatchet which was found in the drawer of a table in Miller's kitchen. There is now the following circumstantial evidence against Prof. Miller, who was the girl's music teacher, and had paid her such marked attention that her father had asked him to keep away from the house.

When he was examined at the Grand River avenue police station yesterday morning, what are supposed to be bloodstains, were found on his shirt sleeves, his trousers, shoes, hat and overcoat; a towel was discovered in a wash room adjoining his kitchen with what are supposed to be bloodstains on it; when he was asked for an explanation of the stains on his clothing, he gave none, and finally the blood-stained hatchet found last night.

Miss Jennett, who was 22 years of age, and who would have become mother in a few months, was most brutally done to death.

PASSED SPECIAL TAX BILL.

Ohio Corporations Must Pay a Little More Than Regular Revenue.

Columbus, O., April 11.-The senate passed the Willis bill, one of the administration's tax measures by a vote vesterday. It places annual tax of 1-10 of 1 per cent of the para up capital stock upon corporations in addition to their regular property taxes. The house defeated the Archer fish and game bill.

Gov. Nash announced yesterday that he would appoint Lieut. Gov. Carl Nippert probate judge of Hamilton county. This will make Senator F. B. Archer, of Belmont county, lieutenant governor of the state-he being now president of the senate.

Wintering in Colorado And Utah. The climate of Colorado and Utah

has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument-the conclusion is selfevident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow chain of circumstantial evidence that blockades during the last ten winters popularly supposed to be more free from such delays than the mountain systems. T is wonderful the amount of style and excellence crowded into these garments. The styles equal the highest priced made, though there's a difference of course, in the quality of the goods and of the trimmings. Yet we may safely say that there is not a garment in the entire aggregation -- more than 20 styles -that can be duplicated elsewhere under \$13.00. The fabrics are all wool, the trimmings are substantial, the workmanship first class, fit and finish are perfect, and alterations, if any are necessary, are made at our ex-

NO merchant tailor in the land can produce better for \$20 to \$25 to order, and, understand, we have a merchant tailoring department. It's the great quantities that are produced by such makers as Stein, Bloch & Co. and Garson - Meyer that makes this underselling possible. It is the enormous output of these concerns that justifies them in employing the world's best talent—more skillful tailors than any merchant tailor can afford to employ. The choicest plain weaves and the handsomest mixtures are included in an endless and most pleasing variety.
